Position Overview

In business for more than 60 years, EBSCO Media is one of the largest sheet-fed commercial printers in the country. The ability to design, print, bindery, fulfill and mail customer-printed material enables EBSCO Media to deliver a full-service printing experience to its clients. This position handles building maintenance problems. Reduce machine downtime through preventive maintenance.

Skills

Two years training in HVAC or Industrial Controls required. HS diploma or equivalent required. Must be able to lift 50 lbs. Walking and standing required the majority of the day. Good reading, writing and verbal communication skills required. One year previous industrial or maintenance experience preferred. Maintain and repair pallet jacks. Service, change oil and rebuild pumps. Service chillers. Emergency repairs on HVAC. Change baler room air filters. Service air compressors, perform oil changes. Service air dryer. Service air compressor oil/water separator system. Inspect and maintain doors and hardware. Clean and maintain vacuum frames, vacuum sources and power supplies. Install and connect telephones. Pull electrical power, telephone, data, security and communication wiring. Perform preventive maintenance on press, bindery, shipping and mailing equipment.
