Automotive Technician/Mechanic

About the Job

Not really sold on dealership flat rate life anymore? This may be the opportunity you have been waiting for:

EuroQ is a European quality assurance company that has established itself as one of the leading quality assurance groups in the automotive manufacturing industry. Our customers are the European OEM’s in the southeastern U.S. (AL, SC, and TN) as well as their supplier base, locally and internationally.

EuroQ is in the process of building a team of excellent, motivated automotive technicians. The company is fresh and growing rapidly; therefore, there are many great opportunities on the horizon. If you are looking for growth outside of dealership life, we may have something for you:

**Repair Technician Responsibilities:**

- Review and perform work according to factory standards on brand new vehicles
- Diagnose, maintain, and perform vehicle automotive repairs including engine, transmission, electrical, steering, suspension, braking, and air conditioning.
- Examine vehicles and notify supervisor of further issues not already noted
- Document all operations according to factory standards
- Provide assistance to others amongst the team
- Maintain a clean work environment
- Maintain and keep track of company assets

**Qualifications:**

- High school diploma or the equivalent
- European vehicle experience required and factory certifications desired (preferably Mercedes-Benz, BMW, VW/Audi)
- Authorized to work in the USA
- Valid driver license and clean driving record
- A very strong focus on quality of work
- Must be a team player
- All applicants must be able to pass drug screening

Take that step that you have been talking about!
