

EGG DROP COMPETITION RULES

1. Each team must present its container at registration for a compliance check.
2. There should be no more than four students per team. Schools may enter more than one team.
3. Materials allowed include drinking straws, tape, string, toothpicks, rubber bands, and glue.
4. If a material is not specifically listed in the materials list, it is NOT allowed. No parachutes or wings will be allowed.
5. Egg drop containers must fit into an 8"x8"x8" box.
6. Medium- sized eggs will be provided to each team at the beginning of the contest. Teams must be able to secure their eggs in the container within five minutes.
7. The mass of each entry will be recorded. In the case of a tie, the winners will be determined based on the container with the least mass.
8. There will be two rounds of competition. The first round will be from the second floor above the Atrium (18 ½ feet). Successful teams from round one will advance to round two which will be from the third floor above the Atrium (33 ½ feet). Teams whose container is designed to collapse on impact should bring two containers.
9. The winner will be the team whose egg is unbroken in each round and whose container has the least mass.
