Next Steps for Returning Dual Enrollment Student

Students who wish to continue to take college courses through dual enrollment for subsequent terms are not automatically reenrolled. They must submit the documents listed below. Also, if a student does not take a dual enrollment course for two consecutive terms, the student must apply as a first time dual enrollment student.

1. Maintain continuous eligibility.

Students who meet the criteria for initial admission in Dual Enrollment will remain in continuous eligibility as long as a grade of “C” or better in all attempted college courses is earned. Students who fail to meet this minimum grade requirement or who withdraw from a course will be suspended from Dual Enrollment for a minimum of one term. The student may not re-enroll until the suspension has been served. For re-entry, the student must reapply to the program and meet the minimum cumulative GPA of 2.5 (unweighted) for academic courses and a minimum cumulative GPA of 2.0 (unweighted) for technical courses.

2. Review the Schedule of Classes.

Students should only take courses that meet their high school requirements, transfer to the college you are planning to attend, or apply to the degree in which you plan to major.
